**PROJECT SUBMITTAL REQUIREMENTS
PART 1: SUBMITTAL REQUIREMENTS**

A. Introduction: This document provides guidance for establishing consistency in project document submittals to the University. "Exhibit A: Submittal Requirements & Space Inventory Checklist" is available for use by the Professional Services Consultant (PSC) and the University for compliance with these Requirements.

B. Related Standards:

1. Space Inventory – Room Number Assignment Standards
2. CAD Standards

C. Definitions

1. As-Built Drawings – Bid or construction drawings marked up by contractors as work commences on a project, that reflect as-built conditions in the field.
2. Record Drawings – The final set of drawings created for a project that incorporates contractor as-builts, including addenda, change orders, supplemental instructions, field orders and represents conditions as completed in the field.
3. Substantial Completion – The "effective" date on the University "Certificate of Substantial Completion," which begins the one year warranty period.
4. Closeout – The end of the one year warranty period, when warranty walk-through and Quality Assurance Checklists have been complete, and when the project is "Closed" in the University's capital project financial services system.

D. Submittals Required: The following submittals are required by the University:

1. Project Manual (with any addenda)
2. Drawings (with any supporting files)
3. Feasibility Studies (if required)
4. Code Analysis
5. Geotechnical Report
6. Construction Cost Estimate
7. Lifecycle Cost Analysis (if over 25,000 sq. ft.)
8. Project Scorecard & Narrative (if a LEED project)

E. Phase Submittals Required: Submittals are required for the Design and Construction Phases as applicable per the Professional Services Agreement. Submittals for the Bid through Close-out Phases are required for all projects.

1. **SCHEMATIC DESIGN**
2. **DESIGN DEVELOPMENT**
3. **CONSTRUCTION – 50% REVIEW**
4. **CONSTRUCTION – 95% REVIEW**
5. **CONSTRUCTION – 100% REVIEW**
6. **BID**
7. **SUBSTANTIAL COMPLETION**
8. **CLOSE-OUT**

F. Submittal Delivery and Format Requirements:

1. All submittals shall be accompanied by a Transmittal Form such as one commonly accepted in the Construction Industry, and including (but not limited to):
 - a. University Project Number
 - b. Project Title as appears in PRZM (or as approved by the Board of Trustees)
 - c. Project Phase

2. For all Phases except Substantial Completion and Close-Out, submittals shall be delivered as follows by the PSC to:
 - a. **Project Manager:** _____
Facilities & Services, Planning, 1501 South Oak Street, Champaign, IL 61820
One (1) Project Manual with any addenda, and one (1) half-size set of Drawings

 - b. **Assoc. Director Code Compliance and Fire Safety:** Craig Grant
Facilities and Services, 1501 South Oak Street, Champaign, IL 61820
One (1) Project Manual with any addenda, and one (1) half-size set of Drawings

 - c. **Quality Assurance:** Alaina Davis
Facilities and Services, Quality Assurance, University of Illinois, Physical Plant Service Building, MC-800, 1501 South Oak Street, Champaign, IL 61820:
 - i. Schematic Design through Construction - 100%:
Two (2) Project Manuals, one (1) full-size set of Drawings, one (1) half-size set of Drawings, and one (1) electronic set of both the Project Manual and the Drawings
 - ii. Bid:
Three (3) Project Manuals, three (3) Addenda (if any), two (2) full-size set of Drawings, one (1) half-size set of Drawings, and one (1) electronic set of the Project Manual, Drawings and Addenda.

 - d. **CITES:** Brian Cockerham
UIUC CITES, 1304 West Springfield Avenue, Urbana, IL 61801
One (1) Project Manual with any addenda, and one (1) full-size set of Drawings

 - e. **Project Department:** _____

One (1) Project Manual with any addenda, and one (1) _____-size set of Drawings (deferred maintenance projects require half-size sets)

 - f. **Project College:** _____

One (1) Project Manual with any addenda, and one (1) _____-size set of Drawings

 - g. **Note:** Additional submittals may be required for specific design projects. Please contact the Project Manager prior to generating document submittals. (For example: Fire Department Informational Plan Review Set in Schematic Design Phase and/or a Schematic Design set to Planner if Board of Trustees Design Approval is requested and/or Design Submittals to Dan Doolen at ClassTech for Audio/Video related projects).

3. At no later than 45 days past date of Certificate of Substantial Completion, submit to:
 - a. **Quality Assurance:** Alaina Davis
Quality Assurance, Facilities and Services, UIUC, 1501 South Oak Street
Champaign, IL 61820.
One (1) full-size set of marked-up As-Built Drawings, and three (3) copies of
O&M Manuals and Warranties.
4. At no later than 90 days past date of Certificate of Substantial Completion, submit to:
 - a. **Quality Assurance:** Alaina Davis
Quality Assurance, Facilities and Services, UIUC, 1501 South Oak Street
Champaign, IL 61820.
One (1) Project Manual (with Addenda incorporated), one (1) full-size set of
Record Drawings (with As-Built mark-ups incorporated), and one (1) electronic
set of both the Project Manual and the Drawings.

G. Project Manual Requirements: The following information shall be in all submittals:

1. **Contents:** The Project Manual cover shall contain:
 - a. Project Title as appears in PRZM (or as approved by the Board of Trustees)
 - b. University Project Number
 - c. Building Name and Number or Utility Name
 - d. Project Phase
 - e. If used, University logo in compliance with the Illinois Identity Standards, Graphic Standards Manual, Campus Logo Guidelines
2. **Paper Format:** The Project Manual shall be:
 - a. Bound (no ACCO-style bare metal fasteners)
 - b. Split into multiple volumes if more than 300 pages double-sided or over 1.5" thick
3. **Electronic Format:** Files shall be:
 - a. In Microsoft Word (.doc) format compatible with the currently supported version (Word 2003)
 - b. One (1) set of pdf files (one section per file)
 - c. Submitted on CD or DVD
 - d. Submitted one project per CD or DVD
 - e. Uncompressed
 - f. In one folder titled "Project Manual"
 - g. Named by specification section number

H. Drawing Requirements: These documents shall be:

1. **Contents:** Drawing title blocks shall contain, but are not limited to:
 - a. Project Title as appears in PRZM (or as approved by the Board of Trustees)
 - b. University Project Number
 - c. Building Name and Number, or Utility Name
 - d. Project Phase (Note: a "Record Drawing" stamp on the cover sheet is not acceptable. Each drawing shall have the Phase indicated in the Revision block.)
 - e. Drawing Title
 - f. Drawing Number
 - g. Revision Number, Date, and Description (Note: a "Record Drawing" stamp on the cover sheet is not acceptable. Each drawing should have the Phase indicated in the Revision block.)

- h. If used, University logo in compliance with the Illinois Identity Standards, Graphic Standards Manual, Campus Logo Guidelines

2. **Paper Format:** Drawings shall be:

- a. Bound (sets shall not be submitted loose)
- b. Split into multiple volumes if more than 100 sheets
- c. In compliance with the CAD Standards

3. **Electronic Format:** Files shall be:

- a. 1 set of unbound CAD drawings in .dwg format compatible with the currently supported version (AutoCAD 2006), packaged with eTransmit or Pack-n-go, using the "Place all files in one folder" Transmittal Option
- b. 1 set of pdf drawings (one drawing per file)
- c. Uncompressed
- d. In one folder titled "Drawings", and two subfolders titled, "CAD" and "pdf". There shall not be any further subfolders with the "CAD" and "pdf" folders except to denote multiple volumes in accordance with the hardcopy set.
- e. In compliance with the CAD Standards
- f. Submitted on CD or DVD (no ftp site or e-mail)
- g. Submitted one project per CD or DVD
- h. One drawing per file
- i. Files shall be named by drawing number, with no additional prefixes or suffixes. The only exception to this is the addition of a numeric prefix that allows the files to sort in the same order as the hardcopy drawing set.
example: G-1.dwg 001_G-1.dwg

I. **Electronic Media (CD-Rom or DVD) Label Requirements:** Labels shall contain:

- a. University Project Number, Name and CDB Number (if applicable)
- b. University Building Number and Name
- c. University Project Manager
- d. Consultant Name and Contact Information
- e. Project Phase
- f. Content Description (e.g.: "Project Manual", "Project Drawings", etc.)
- g. Date of Submittal Documents (i.e. dates of drawings or project manuals – not the date the CD or DVD was created)

J. **Validation of Deliverables:** The University reserves the right to request a new submittal at the consultant's expense if the documents submitted are not in compliance with the Project Submittal Requirement Standards, Space Inventory - Room Number Assignment Standards, and CAD Standards

PROJECT SUBMITTAL REQUIREMENTS PART 2: CAD STANDARDS

CHAPTER I: UTILIZING THE CAD STANDARDS

A. Introduction: This chapter describes how to conform to the CAD Standards, the purpose, guidelines, and related procedures.

B. Related Documents:

1. *Exhibit B, CAD Standard Master Layer List*

C. References:

1. *United States National CAD Standard Guidelines Version 3.1*

D. Purpose: Provide for a common medium of information exchange. In fact, the true power and potential of CAD is the ability to re-use and share the information contained within the CAD document. The key to realizing this potential is common organizing principles—standards for the production and dissemination of CAD information. The standard organization of files, layers and entities, as well as standardized software applications is essential for effective work and communication. Standards are necessary to ensure that:

1. CAD drawings and data created in one phase (e.g., design) are readily usable in subsequent phases (e.g., facility management).
2. Drawings and data are applicable for their intended use.
3. Drawings and data are compatible with the available CAD equipment and software.
4. Drawings and data created for one project or project discipline, are compatible with those created for others.
5. Drawings and data can be transferred and integrated with other applications, such as facility management.
6. Drawings and data created in one department of the University are consistent with those developed by the other departments.
7. The compatibility of the University CAD drawings and data with pertinent national, international and industry standards is maintained.

E. Guidelines: To ensure that the University of Illinois and its Consultants conform to the broader scope of the proposed National CAD Standard, sponsored by the National Institute of Building Sciences (NIBS) CADD Council, these Standards incorporate recommended guidelines from the following:

1. *United States National CAD Standard Guidelines Version 3.1*

F. Comprehensive Facilities Management Strategy: The University of Illinois has multiple information management systems that require data be specifically formatted for compatibility. This document sets performance standards for CAD data delivered to the University. The University does not intend to influence the methods or means of practice of outside Consultants. Consultants may use any CAD system to develop construction documents for

the University, as long as the delivered data conforms to the current University CAD Standards.

Commitment: The University is committed, however, to enforcing the standards of information delivery that ensure predictability and the ability to easily reuse information. As a result, these CAD Standards will be included as part of the Professional Services Consultant Requirements: Project Submittal Requirements.

- H. Scope:** This data specification covers all Construction Documents prepared by or on behalf of the University. CAD drawings shall be provided for all Projects, regardless of size. The deliverables described in this manual shall be provided for each sheet that is issued for construction in a Project and shall include all supporting data files that are used to produce the finished sheets. If additional electronic design drawings or 3D models are provided, it is the responsibility of the Consultant to initiate discussion with the Chief Engineering Draftsman, Planning Resources to determine an acceptable format for those deliverables.
- I. Application:** Anyone who is going to prepare CAD data for the University, including University staff, Contractors, and Consultants, shall read and become familiar with this document before proceeding with any work. (The term "Consultant" used in this manual refers to the person or organization who is preparing the CAD data, whether the person or organization is part of the University or not.)
- J. Basic CAD Software Requirements:** The designated CAD software for the University is Autodesk's AutoCAD. All CAD files are required to be delivered in AutoCAD's .dwg file format.
- K. CAD Application Software:** CAD application software packages operate on top of, or in conjunction with, the basic CAD software to extend its capabilities. The extensions enhance design, drafting and modeling productivity and link non-graphic attribute data to the graphic entities. All CAD application packages used by the University, or its Consultants, which modify or create CAD layers or other entities shall comply with these Standards.
- L. Inquiries about the CAD Standards:** These Standards will be most effective for the University and most usable for Consultants if there is communication between Consultants, the Owner's Representative and the Chief Engineering Draftsman, Planning Resources.

Consultants should ask questions about the CAD Standards before beginning work. Concerns regarding the impact of the CAD standards on a particular Project shall be discussed with the Owner's Representative and the Chief Engineering Draftsman, Planning Resources.

Consultants' questions are valuable because they help the University understand the real-world conditions of each Project's design and construction process. Questions will raise issues that will result in better CAD Standards.

- M. Requests for Improving the CAD Standards:** The content of this manual is intended to be neither static nor all-inclusive. Suggestions for improvements are encouraged so that subsequent updates reflect the needs of the University. Submit requests, as well as any pertinent new information, to the Chief Engineering Draftsman, Planning Resources.

CHAPTER II: TECHNICAL REQUIREMENTS FOR CAD STANDARDS

A. Introduction: The organization and format of the CAD deliverables shall support the requirements of the University Project for design, construction, bidding and archiving. The deliverable shall also readily support the integration of information into other University facility management systems with minimal additional effort.

B. Drawing Setup: This chapter describes how to organize and set up CAD drawings for the University. Consultants shall obtain prior approval from the Owner's Representative and Chief Engineering Draftsman, Planning Resources for any exceptions to the drawing set up Standards. Consultants shall submit documentation that shows the files affected and how they deviate from the Standards.

1. Drawing Units: Architectural CAD files shall be drawn using architectural (feet and inches). Civil engineering CAD files shall be drawn using decimal (feet and hundredths).

2. Drawing Accuracy: All CAD drawings shall be drafted using precision input employing the most accurate source material available. For all drawing entities, zero tolerance is required, all lines meet at intersections, straight lines are straight, blocks are inserted properly without overlap, etc.

Consultants are responsible for the accuracy of all CAD drawings delivered to the University, regardless of the accuracy of CAD drawings of previous projects furnished by the University as a convenience to the consultant.

3. Drawing Scale: Objects created in model space shall be drawn at 1:1 scale (ie. a 100-foot wall will be drawn to 100 feet and a 36-inch column will be drawn to 36 inches).

The following types of CAD models may be drawn to any scale: schedules, riser diagrams, schematic diagrams and single line diagrams.

4. Drawing Origin and Registration: The origins of CAD files shall be defined at coordinates 0, 0, 0. This is typically the lower left corner of the building. For non-rectilinear buildings a logical origin point shall be established.

The origin point shall remain consistent between all CAD files in a Project. This is critical for correct registration of different CAD files when referenced together, aligning the various views of the facility. Registration of electronic data shall be maintained so the information will be usable in future applications.

a. Exception: Civil engineering CAD files (Topographic-Site Surveys, Building Site Plans, Utility Site Plans etc.) shall use true geographic coordinates for their origins. Horizontal Datum shall be based upon Illinois State Coordinate System East Zone North American Datum of 1983 (1986) "**NAD 83 ILLINOIS STATE PLANE, EAST ZONE (1986)**" and Vertical Datum based upon National Geodetic Vertical Datum of 1929, "**NGVD 1929**".

5. Graphic Representation of Entities

a. Curved Entities: Circles, arcs and ellipses shall be created as individual entities, not of line segments.

- b. **Entity Properties:** Entity properties such as color, line weight, and linetype shall be set BYLAYER, for purposes of clarity.

Line weight and color affect the use of CAD data in different ways. Line weight typically is most effective when working with plotted CAD files. Plots, or reproductions of plots, are typically monochrome. Utilizing line weights can be an effective means of communicating important information about the facility and the design Project.

Color is most useful when displaying the CAD data on a computer screen. Colors allow users to readily identify systems and unique types of information.

Consultants shall select line weights and colors that promote effective use of the CAD data, in both plotted and electronic formats.

- 6. **Line Type Scale:** Line type scale shall be set so that each line type is recognizable, easily identified, and distinguishable to individuals who are working in the CAD files and in final plotted output.

7. Text Requirements

- a. The text height requirement for all University of Illinois Cad files shall be 1/10 of an inch minimum.
- b. Text shall be all upper case, except for cases where symbols require lower case letters.
- c. Text shall be placed in the CAD file with enough space around it, to allow for legibility when the CAD file is plotted and reproduced.
- d. Text placed at an angle shall be readable from bottom or right edge of the plotted sheet. Typically text shall be placed at 0 or 90 degrees.
- e. Text placed along (aligned above or below) an object at an angle other than 0 or 90 degrees is acceptable.

8. Dimension Requirements

- a. Associative dimensions shall be used.
- b. Dimension style names shall be consistent between CAD files within a Project.

- 9. **Blocks:** Any graphic entity that occurs repeatedly in drawings shall be made into a block. Insertion points for blocks shall be consistent with its placement in the drawing. Use a logical insertion point (center of circle, bottom left corner of object, etc.). Keep names simple and descriptive. AutoCAD block names shall be unique within each Project. Nested blocks contain more than one block definition. Nested blocks are permitted but should be avoided whenever possible. Blocks shall conform to the *United States National CAD Standard Guidelines Version 3.1*.

- 10. **Hatching:** Do not use polylines with increased width as a replacement for poché or hatching.

- C. Layers:** The University has adopted the CAD layer naming convention published by the United States National CAD Standard Version 3.1. Consultants shall follow this layer naming system when producing CAD files for the Project.

Layer names and assignments are shown in *Exhibit 00100-1, CAD Standard Master Layer List*. The layer table categorizes layers by discipline, and by type of information. This table also shows several items for each layer, as follows: a complete listing of all layer names, a detailed definition for each layer, and the presentation graphics associated with each layer, including color, and line type.

Consultants who wish to use additional layers shall submit a list of proposed layer names to the Chief Engineering Draftsman, Planning Resources.

- 1. Layer Format:** The University's layer guidelines are organized as a hierarchy. The convention utilizes a scheme of naming layers with four field groups. The four groups are discipline code, major group, minor group and status field:

- 2. Discipline Code:** The Discipline Code is a two-character field with the second character either a hyphen or a user-defined modifier. The defined codes are the same for both layers and file names. Table 1 shows the letters that shall be used for the first character of the discipline code.

Code	Discipline
G	General
H	Hazardous Materials
V	Survey Mapping
B	Geotechnical
W	Civil Works
C	Civil
L	Landscape
S	Structural
A	Architectural
I	Interiors
Q	Equipment
F	Fire Protection
P	Plumbing
D	Process
M	Mechanical

E	Electrical
T	Telecommunications
R	Resource
X	Other Disciplines
Z	Contractor / Shop Drawings
O	Operations

Table 1: CAD layer discipline codes

3. **Major Group:** Major groups are a four-character field used to identify the building system. Major groups are typically grouped with specific discipline codes. For example, a drawing might contain the following layers:
 - a. A-WALL Walls
 - b. A-DOOR Doors
 - c. C-PKNG Parking Lots

4. **Minor Group:** Minor groups add an additional set of information to the layer names. It is an optional, four-character field that further differentiates major groups into types of information. For example, A-WALL-PRHT indicates architecture, new, wall, partial height.

5. **User-Definable Fields:** The minor group field can be defined by the user, allowing additional layers to be added to accommodate special Project requirements. This shall only be done if a defined layer does not apply to a Project. Some examples of layers using a user-defined minor group field are as follows:
 - a. A-DOOR-METL Metal doors
 - b. A-WALL-STRC Walls to structure
 - c. A-FURN-PNL1 Furniture panels from manufacturer 1
 - d. A-FURN-PNL2 Furniture panels from manufacturer 2
 - e. Common Layers Used in All Files

6. **Annotation Layers:** Annotation comprises text, dimensions, sheet borders, detail references, and other elements on CAD drawings that do not represent physical aspects of a building. Annotation is designated by the major group "ANNO." See University of Illinois Standard Layers List *Exhibit B, CAD Standard Master Layer List* for examples of annotation layers.

7. **Status layers:** The status field is an optional, four-character field that designates the phase of construction and status of the elements. This field is optional and is only needed when phases of work need to be differentiated.

The status field is always placed as the last field of the layer name. In a simple layer name such as A-WALL, the status field would be the third field, A-WALL-DEMO. In a more detailed layer name, the status field would be the fourth field, A-WALL-INTR-DEMO. See University of Illinois Standard Layers List *Exhibit B, CAD Standard Master Layer List* for status field designators.

PROJECT SUBMITTAL REQUIREMENTS

PART 3: SPACE INVENTORY - ROOM NUMBER ASSIGNMENT STANDARDS

- A. Introduction:** This document provides guidance for establishing a consistent and intuitive room numbering system within University buildings.
- B. Related Documents and Standards:**
1. *Drawing 00100-1, Space Inventory - Room Number System*
 2. *Drawing 00100-2, Space Inventory - Actual Room Use Assignments*
 3. *Drawing 00100-3, Space Inventory - Area Polylines*
 4. *CAD Standards*
- C. References:**
1. *Postsecondary Education Facilities Inventory and Classification Manual*
- D. Purpose:** Allow better navigation of the buildings on campus for students, staff, maintenance personnel, and emergency personnel. Ensure room numbers conform to the University's Space Inventory database structure.
- F. Room Numbering Guidelines:**
2. Room number layout shall begin at the main entrance of the building proceeding in a clock-wise direction.
 3. Odd room numbers and even room numbers shall be placed on opposite sides of the corridor. (Example: Odd room number 1015 shall be across the corridor from even room number 1016). Proceeding clock-wise from the main entrance, even room numbers shall be assigned to rooms on the left side of the corridor, odd room numbers shall be assigned to rooms on the right side of the corridor.
 4. Vertical similarity shall be maintained between floors of the building. Special consideration shall be given to restrooms and mechanical areas.
 5. Room numbers shall be assigned in accordance with the ranges listed below for each floor of the building.
 - a. Basement: 1 – 999
 - b. Ground Floor / First Floor: 1000 – 1999
 - c. Second Floor: 2000 – 2999
 - d. Third Floor: 3000 – 3999
 - e. Fourth Floor: 4000 – 4999 etc.
 6. **Planning:** Omitting room numbers from the sequence in a room numbering system will allow availability of room numbers for future room remodels.
 7. **Primary Room Numbers:** Rooms that can be accessed from a corridor shall be assigned a primary room number (Example: 1000, 1001, or 1002). See *Drawing 00100-1*.

8. **Alpha Suffix Room Numbers:** Rooms that can be accessed only from a room with a primary room number shall be assigned an alpha suffix room number. Example: 1000A, 1000B, or 1000C. See *Drawing 00100-1*.
 9. **Alpha-Numeric Suffix Room Numbers:** Rooms that can be accessed only from a room with an alpha suffix room number shall be assigned an alpha-numeric suffix room number. Example: 1000A1, 1000A2, or 1000A3. See *Drawing 00100-1*.
 10. **C-Prefix Room Numbers:** Circulation area spaces shall be assigned a C-Prefix room number. Corridors, vestibules, unfurnished commons areas, and elevator lobby areas are examples of circulation area spaces. Example: C1000, C1050, and C1100. See *Drawing 00100-1*.
 11. **ELEV-Prefix Room Numbers:** Elevators shall be assigned an ELEV prefix room number. Each elevator in a building shall be assigned only one ELEV-prefix room number. Example: ELEV1, ELEV2, or ELEV3. See *Drawing 00100-1*.
 12. **STAIR-Prefix Room Numbers:** Stairwells shall be assigned a STAIR prefix room number. Each stairwell in a building shall be assigned only one STAIR-prefix room number. Example: STAIR1, STAIR2, or STAIR3. See *Drawing 00100-1*.
 13. **Exceptions to Standards:** Consultant shall contact the Coordinator of Records Management for approval of any exceptions to the *A / E Requirements Space Inventory – Room Number Assignment Standards*.
- F. **Room Use:** All rooms in a room number system shall be assigned an Actual Room Use Code and Name, in accordance with the *Postsecondary Education Facilities Inventory and Classification Manual* standards for room usages – see Table 1: Actual Room Uses below. See *Drawing 00100-2*.
1. **Postsecondary Education Facilities Inventory & Classification Manual:** This manual may be ordered *free of charge* from the U.S. Department of Education. However, only one manual per customer. Ordering information below:

U.S. DEPARTMENT OF EDUCATION
1-877-4ED-PUBS, 1-877-433-7827
P.O. BOX 1398
JESSUP, MD 20794-1398
<http://www.edpubs.org>

2. **Assignable Space:** According to the *Postsecondary Education Facilities Inventory and Classification Manual*, the definition for Assignable Space is “The sum of all areas on all floors of a building assigned to or available for assignment to, an occupant or for specific use”.
3. **Non-Assignable Space:** According to the *Postsecondary Education Facilities Inventory and Classification Manual*, the definition for Non-Assignable Space is “The sum of all areas on all floors of a building not available for assignment to an occupant or for specific use, but necessary for the general operation of a building”.

Table 1: Actual Room Uses

- G. Identification Devices:** All rooms in the space inventory room number system (including, corridors, elevators, janitor closets, mechanical rooms, restrooms, stairwells, vestibules, etc.) shall receive an identification device.
1. The identification device shall display the room number assigned to that room in the space inventory room number system. (Example: room number assignment ELEV1 shall be displayed as "ELEV1").
 2. Identification devices shall conform to the *"U.I.U.C Facility Standards, Division 10 – Specialties, Section 10440 – Identifying Devices"*.
- H. Drawing Requirements:** Space Inventory data shall be added to CAD files in accordance with the University's *"CAD Standards Section"*. See *CAD Standard Master Layer List, Exhibit B, and Space Inventory – Room Number Assignment Standards, Drawings 00100-1, 00100-2, and 00100-3*.
- I. Conformance to Room Number Assignment Standards:** The Room Numbering Systems delivered to the University by Consultants shall comply with the University *"Space Inventory - Room Number Assignment Standards"* in effect during the current Project.

The University requires sample submittals at key milestones during development of the room numbering system in accordance with the Professional Services Consultant Contract.

Sample submittals are not intended to be a burden on the Consultant, and typically will involve a very limited number of drawings. The University requires digital media submittals, as a minimum, be provided at the first and final submittal milestones.

Providing digital media at the first submittal milestone will allow the University to verify the room numbering system being used by the Consultant conforms to the University's *Space Inventory - Room Number Assignment Standards* and can be readily used in the University's Space Inventory database.

EXHIBITS

EXHIBIT A: SUBMITTAL REQUIREMENTS & SPACE INVENTORY CHECKLIST

EXHIBIT B: CAD STANDARD MASTER LAYER LIST

Exhibit A: Submittal Requirements & Space Inventory Checklist

Project _____

Phase _____

Project Manager _____

Review Date _____

- Compliant with
 - CAD Standards (see separate CAD Standards Checklist)¹
 - Space Inventory – Room Number Assignment Standards
 - Room Number Systems²
 - Actual Room Use Assignments³
 - Area Polylines⁴

- Transmittal Form (including, but not limited to:)⁵
 - University Project Number
 - University Project Name as approved by Board of Trustees
 - Phase

- CD-Rom or DVD⁶
 - Label
 - University Project – Name, Number and CDB Number (if applicable)
 - University Building – Name, Number and Address
 - University Contact – Name, Department, Telephone, Fax and Email
 - Consultant – Name, Address, Telephone, Fax and Email
 - Phase
 - Content Description (e.g. Project Manual and Project Drawings)
 - Date of Submittal Documents
 - Date Submitted
 - Files
 - One project per CD or DVD
 - Uncompressed files
 - Folder structure:
 - Drawings
 - CAD
 - pdf
 - Project Manual
 - All sheets submitted in hard copy are submitted in e-copy

- Review Copies Delivered to:⁷
 - Project Manager – 1 half-size
 - Code Compliance Officer – 1 half-size
 - Quality Assurance – 2 full-size, 1 half-size, e-copy
 - CITES – 1 full-size
 - Emergency Planning (e-copies only)
 - Project Department – 1 full-size
 - Project College – 1 full-size

¹ Project Submittal Requirements: Section B

² Space Inventory – Room Number Assignment Standards: Section E, and Drawing 00100-1

³ Space Inventory – Room Number Assignment Standards: Section F, and Drawing 00100-2

⁴ Space Inventory – Room Number Assignment Standards: Section H, and Drawing 00100-3

⁵ Project Submittal Requirements: Section F1

⁶ Project Submittal Requirements: Section I

⁷ Project Submittal Requirements: Section F

- Substantial Completion – to Quality Assurance⁸
 - 1 full-size copy of marked-up field drawings
 - 3 copies of O&M Manuals and Warranties

- Close-Out – to Quality Assurance⁹
 - 1 full-size
 - 1 e-copy
 - Drawing list
 - Construction Submittal Log

- Project Manual¹⁰
 - Cover
 - Project Title as appears in PRZM, or approved by Board of Trustees
 - UIUC Project Number
 - Building Name and Number OR
 - Utility Name
 - Phase
 - Logo in compliance with Campus Identity Standards
 - Paper Copy
 - Bound (no ACCO-style bare metal fasteners)
 - Split if over 300 pages or over 1.5” thick
 - E-copy
 - MS Word
 - Uncompressed
 - Files named by spec section

- Drawings¹¹
 - Title Block
 - Project Title as appears in PRZM, or as approved by Board of Trustees
 - UIUC Project Number
 - Building Name and Number or Utility Name
 - Phase
 - Drafting Person’s Initials
 - Reviewer’s Initials
 - Drawing Title
 - Drawing Number
 - Revision Number, Date, and Description
 - Logo in compliance with Campus Identity Standards
 - Paper Copy
 - Complies with CAD Standards
 - Bound
 - Split if over 100 sheets
 - E-copies
 - Complies with CAD Standards
 - 1 set unbound CAD drawings – eTransmit or Pack-n-go, “Place all files in one folder” Transmittal Option
 - 1 set pdf (1 drawing per file)
 - Uncompressed
 - Drawing files named by sheet number (or by system, if multiple layout tabbed cad files are submitted)
 - No file prefixes or suffixes, except to help sort files per paper set
 - e.g. G-1.dwg may be named 001_G-1.dwg

⁸ Project Submittal Requirements: Section F3

⁹ Project Submittal Requirements: Section F4

¹⁰ Project Submittal Requirements: Section G

¹¹ Project Submittal Requirements: Section H

EXHIBIT B: CAD STANDARD MASTER LAYER LIST

General Information			
Annotation Layers			
Key Plans, Schedules, Legends & Misc			
Layer Name	Layer Description	Line Type	Color #
*-ANNO-TEXT	Text	Varies	Varies
*-ANNO-REDL	Redline	Varies	Varies
*-ANNO-SYMB	Symbols	Varies	Varies
*-ANNO-LEGN	Legends and schedules	Varies	Varies
*-ANNO-DIMS	Dimensions	Varies	Varies
*-ANNO-TTLB	Border and title block	Varies	Varies
*-ANNO-NOTE	Notes	Varies	Varies
*-ANNO-NPLT	Construction lines, nonplotting information	Varies	Varies
*-ANNO-KEYN	Key notes	Varies	Varies
*-ANNO-REVS	Revisions	Varies	Varies
*-ANNO-XREF	Reference files	Varies	Varies
	<i>*Note: Annotation layer names may be appended with a four-character sheet name designator when needed.</i>		
Common Modifiers			
*-****-PATT	Cross - hatching, poch'e	Varies	Varies
*-****-IDEN	Identification tags	Varies	Varies
*-****-ELEV	Elevation (vertical surfaces in 3D)	Varies	Varies
X-RDME	Read - me layer, not to be plotted	Varies	Varies
Status Field Modifiers			
*-****-NEWW	New work	Varies	Varies
*-****-EXST	Existing to remain	Varies	Varies
*-****-DEMO	Demolition	Varies	Varies
*-****-FUTR	Future work	Varies	Varies
*-****-ABND	Abandoned	Varies	Varies
*-****-TEMP	Temporary work	Varies	Varies
*-****-MOVE	Items to be moved	Varies	Varies
*-****-RELO	Relocated items	Varies	Varies
*-****-NICN	Not in contract	Varies	Varies
*-****-PHS1-9	Phase numbers (1-9)	Varies	Varies
	<i>*Note: The status field may also occur as the fourth field, following a minor group.</i>		
One-Line Diagram Layers			
Line Work			
*-1LIN-LWRK-IDEN	One-line line work identification - annotation	Varies	Varies
*-1LIN-LWRK-FINE	One-line line work - fine (0.000 - 0.009)	Varies	Varies
*-1LIN-LWRK-THIN	One-line line work - thin (0.010 - 0.019)	Varies	Varies
*-1LIN-LWRK-MEDM	One-line line work - medium (0.020 - 0.029)	Varies	Varies
*-1LIN-LWRK-WIDE	One-line line work - wide (0.030 - 0.039)	Varies	Varies
*-1LIN-LWRK-EXWD	One-line line work - extra wide (0.040 -)	Varies	Varies

Devices			
*-1LIN-DEVC-IDEN	One-line devices identification - annotation	Varies	Varies
*-1LIN-DEVC-FINE	One-line devices - fine (0.000 - 0.009)	Varies	Varies
*-1LIN-DEVC-THIN	One-line devices - thin (0.010 - 0.019)	Varies	Varies
*-1LIN-DEVC-MEDM	One-line devices - medium (0.020 - 0.029)	Varies	Varies
*-1LIN-DEVC-WIDE	One-line devices - wide (0.030 - 0.039)	Varies	Varies
*-1LIN-DEVC-EXWD	One-line devices - extra wide (0.040 -)	Varies	Varies
Riser Diagram Layers			
*-RISR-LWRK-IDEN	Riser diagram line work identification - annotation	Varies	Varies
*-RISR-LWRK-FINE	Riser diagram line work - fine (0.000 - 0.009)	Varies	Varies
*-RISR-LWRK-THIN	Riser diagram line work - thin (0.010 - 0.019)	Varies	Varies
*-RISR-LWRK-MEDM	Riser diagram line work - medium (0.020 - 0.029)	Varies	Varies
*-RISR-LWRK-WIDE	Riser diagram line work - wide (0.030 - 0.039)	Varies	Varies
*-RISR-LWRK-EXWD	Riser diagram line work - extra wide (0.040 -)	Varies	Varies
Detail Layers			
*-DETL-ACCS	Detail accessories	Varies	Varies
*-DETL-CMUW	Detail concrete masonry unit (CMU) outline (no patterning)	Varies	Varies
*-DETL-CONC	Detail concrete	Varies	Varies
*-DETL-COVR	Detail covers and fittings	Varies	Varies
*-DETL-DEVC	Detail devices (e.g. valves, meters, pump stations etc.)	Varies	Varies
*-DETL-DIMS	Detail witness/extension lines, dimension arrowheads/dots/slashes, dimension text	Varies	Varies
*-DETL-ERTH	Detail earth	Varies	Varies
*-DETL-FAST	Detail fasteners	Varies	Varies
*-DETL-FENC	Detail fencing	Varies	Varies
*-DETL-FILL	Detail fill	Varies	Varies
*-DETL-FNGR	Detail finished grade	Varies	Varies
*-DETL-FTTG	Detail fittings (e.g. tees, crosses, reducers etc.)	Varies	Varies
*-DETL-GENF	Detail general features (miscellaneous items including details within the detail)	Varies	Varies
*-DETL-JUNC	Detail junctions (e.g. manholes, pedestals, handholes etc.)		
*-DETL-NPLT	Detail non-plotting - construction lines, reference targets, area calculations, review comments	Varies	Varies
*-DETL-MISC	Detail joint materials (e.g. felt), vapor barrier, other	Varies	Varies
*-DETL-MODL	Detail model		
*-DETL-PIPE	Detail piping	Varies	Varies
*-DETL-PATT	Detail miscellaneous patterning	Varies	Varies
*-DETL-PAVE	Detail pavement	Varies	Varies
*-DETL-REIN	Detail reinforcement rebar, welded wire mesh	Varies	Varies
*-DETL-SPCF	Detail special features	Varies	Varies
*-DETL-STLS	Detail steel structure wide flange shapes, plates, open web joists, decking, bolts, nails	Varies	Varies
*-DETL-STRC	Detail structural metal	Varies	Varies
*-DETL-SYMB	Detail reference bubbles, match lines and break lines	Varies	Varies
*-DETL-SHDE	Detail shaded line work	Varies	Varies
*-DETL-TANK	Detail tanks	Varies	Varies

*-DETL-TEXT	Detail title text, text and associated leader lines and arrowheads, notes	Varies	Varies
*-DETL-TTLB	Detail border and title block		
*-DETL-WELD	Detail weld symbols	Varies	Varies
*-DETL-WOOD	Detail wood outline (no patterning)	Varies	Varies

Architectural			
Layer Name	Layer Description	Line Type	Color #
Architectural Layers			
A-AREA-GROS	Architectural area - Exterior and Interior Gross Area each floor plan shall consist of two (2) separate closed polylines. One (1) polyline shall be drawn around the interior face of the exterior wall of the building. One (1) polyline shall be drawn around the exterior face of the exterior wall of the building - See <i>Drawing 00100-3</i> .	Continuous	3
A-AREA-RM	Architectural area - Room Interior Area One (1) closed polyline shall be drawn around the interior face of the walls for each individual room on a floor. See <i>Drawing 00100-3</i> .	Continuous	2
A-AREA-RMID	Architectural area - Room Numbers shall be assigned according to the University's " <i>Space Inventory - Room Number Assignment Standards</i> ". See <i>Drawing 00100-1</i> - annotation	Continuous	4
A-AREA-RUID	Architectural area - Actual Room Use Identifications shall be acquired according to the University's " <i>Space Inventory - Room Number Assignment Standards</i> ". See <i>Drawing 00100-2</i> . - annotation	Continuous	4
A-AREA-PATT	Architectural area cross hatching	Continuous	Varies
A-CLNG	Architectural ceiling information	Varies	Varies
A-CLNG-ACCS	Architectural ceiling access	Varies	Varies
A-CLNG-CONT	Architectural ceiling control joints	Varies	Varies
A-CLNG-GRID	Architectural ceiling grid	Varies	Varies
A-CLNG-OPEN	Architectural ceiling / roof penetrations	Varies	Varies
A-CLNG-PATT	Architectural ceiling patterns (e.g. gypsum, plaster, user defined)	Varies	Varies
A-CLNG-TEES	Architectural ceiling main tees	Varies	Varies
A-CLNG-SUSP	Architectural ceiling suspended: ceiling mounted specialties (e.g. clocks, fans, etc.)	Varies	Varies
A-COLS-ENCL	Architectural column enclosures / fire protection	Varies	Varies
A-DOOR	Architectural doors	Varies	Varies
A-DOOR-ELEV	Architectural doors: 3D views	Varies	Varies
A-DOOR-FULL	Architectural doors full-height (to ceiling) door: swing and leaf	Varies	Varies
A-DOOR-IDEN	Architectural doors door number, hardware group, etc. - annotation	Varies	Varies
A-DOOR-PRHT	Architectural doors partial-height door: swing and leaf	Varies	Varies
A-DOOR-SYMB	Architectural doors miscellaneous symbols (e.g. overhead, bifold, pocket, etc.)	Varies	Varies
A-ELEV	Architectural elevations interior and exterior	Varies	Varies
A-ELEV-CASE	Architectural elevations wall-mounted casework	Varies	Varies

A-ELEV-OTLN	Architectural elevations building outlines	Varies	Varies
A-ELEV-FIXT	Architectural elevations miscellaneous fixtures	Varies	Varies
A-ELEV-FNSH	Architectural elevations finishes, woodwork, trim	Varies	Varies
*-****-ABND	Abandoned	Varies	Varies
A-ELEV-IDEN	Architectural elevations component identification numbers - annotation	Varies	Varies
A-ELEV-PATT	Architectural elevations textures and hatch patterns	Varies	Varies
A-ELEV-PFIXT	Architectural elevations plumbing fixtures	Varies	Varies
A-ELEV-SIGN	Architectural elevations signage	Varies	Varies
A-EQPM	Architectural equipment	Varies	Varies
A-EQPM-ACCS	Architectural equipment access	Varies	Varies
A-EQPM-CLNG	Architectural equipment ceiling-mounted or suspended	Varies	Varies
A-EQPM-ELEV	Architectural equipment surfaces: 3D views	Varies	Varies
A-EQPM-FIXD	Architectural equipment fixed (non-moveable)	Varies	Varies
A-EQPM-IDEN	Architectural equipment identification numbers	Varies	Varies
A-EQPM-MOVE	Architectural equipment moveable	Varies	Varies
A-EQPM-NICN	Architectural equipment not in contract	Varies	Varies
A-FLOR	Architectural floor information	Varies	Varies
A-FLOR-CASE	Architectural floor casework (manufacture cabinets)	Varies	Varies
A-FLOR-EVTR	Architectural floor elevator cars and equipment	Varies	Varies
A-FLOR-FIXT	Architectural floor mounted/free standing miscellaneous fixtures (not including toilet fixtures)	Varies	Varies
A-FLOR-HRAL	Architectural floor stair and balcony handrails, guard rails (except handicap grab bars)	Varies	Varies
A-FLOR-IDEN	Architectural floor targets, notes etc - annotation	Varies	Varies
A-FLOR-LEVL	Architectural floor level changes, ramps, pits, depressions, breaks in construction	Varies	Varies
A-FLOR-OTLN	Architectural floor or building outline	Varies	Varies
A-FLOR-OVHD	Architectural floor overhead items (skylights, overhangs ---- usually dashed line)	Varies	Varies
A-FLOR-PATT	Architectural floor paving, tile, carpet patterns	Varies	Varies
A-FLOR-PFIX	Architectural floor plumbing fixtures	Varies	Varies
A-FLOR-RAIS	Architectural floor: raised	Varies	Varies
A-FLOR-RISR	Architectural floor stair risers	Varies	Varies
A-FLOR-SIGN	Architectural floor signage	Varies	Varies
A-FLOR-SPCL	Architectural floor specialties (toilet room accessories - <i>floor mounted only</i> , display cases)	Varies	Varies
A-FLOR-STRS	Architectural floor stair treads, escalators, ladders	Varies	Varies
A-FLOR-TPTN	Architectural floor toilet partitions and handicap grab bars	Varies	Varies
A-FLOR-WDWK	Architectural floor woodwork (field-built cabinets and counters)	Varies	Varies
A-FURN	Architectural furniture	Varies	Varies
A-FURN-CHAR	Architectural furniture chairs and other seating	Varies	Varies
A-FURN-ELEV	Architectural furniture elevations: 3D views	Varies	Varies
A-FURN-FILE	Architectural furniture file cabinets	Varies	Varies
A-FURN-FREE	Architectural furniture: freestanding (desks, credenzas, etc.)	Varies	Varies
A-FURN-IDEN	Architectural furniture numbers	Varies	Varies
A-FURN-PATT	Architectural furniture finish patterns	Varies	Varies
A-FURN-PLNT	Architectural furniture plants	Varies	Varies
A-FURN-PNLS	Architectural furniture system panels	Varies	Varies

A-FURN-POWR	Architectural furniture system ---- power designations	Varies	Varies
A-FURN-STOR	Architectural furniture system storage components	Varies	Varies
A-FURN-WKSF	Architectural furniture system work surface components	Varies	Varies
A-GLAZ	Architectural glazing windows, window walls, curtain walls, glazed partitions	Varies	Varies
A-GLAZ-ELEV	Architectural glazing and mullions --- elevation views	Varies	Varies
A-GLAZ-FULL	Architectural glazing full-height glazed walls and partitions	Varies	Varies
A-GLAZ-IDEN	Architectural glazing window number	Varies	Varies
A-GLAZ-PRHT	Architectural glazing windows and partial-height glazed partitions	Varies	Varies
A-GLAZ-SILL	Architectural glazing windowsills	Varies	Varies
A-ROOF	Architectural roof	Varies	Varies
A-ROOF-CRTS	Architectural roof crickets flow arrows flow info	Varies	Varies
A-ROOF-DRNS	Architectural roof drains	Varies	Varies
A-ROOF-EDGE	Architectural roof internal gutters	Varies	Varies
A-ROOF-EXPN	Architectural roof expansion joints	Varies	Varies
A-ROOF-HRAL	Architectural roof stair handrails, nosings, guardrails	Varies	Varies
A-ROOF-LEVL	Architectural roof level changes	Varies	Varies
A-ROOF-OTLN	Architectural roof outline	Varies	Varies
A-ROOF-PATT	Architectural roof surfaces patterns, hatching	Varies	Varies
A-ROOF-SPCL	Architectural roof specialties, accessories, access hatches	Varies	Varies
A-ROOF-STRS	Architectural roof stair risers / treads, ladders	Varies	Varies
A-ROOF-WALK	Architectural roof walkways	Varies	Varies
A-WALL	Architectural wall	Varies	Varies
A-WALL-CAVI	Architectural wall: cavity lines	Varies	Varies
A-WALL-CNTR	Architectural wall: centerlines	Varies	Varies
A-WALL-CWGM	Architectural wall: curtain, mullions, & glass	Varies	Varies
A-WALL-ELEV	Architectural wall surfaces: 3D views	Varies	Varies
A-WALL-EXTR	Architectural wall: exterior full height	Varies	Varies
A-WALL-FIRE	Architectural wall: fire wall designators (patterning)	Varies	Varies
A-WALL-HEAD	Architectural wall Door and window headers (appear on reflected ceiling plans)	Varies	Varies
A-WALL-IDEN	Architectural wall identification / type text or tags - annotation	Varies	Varies
A-WALL-INTR	Architectural wall: interior full height	Varies	Varies
A-WALL-JAMB	Door and window jambs (do not appear on reflected ceiling plans)	Varies	Varies
A-WALL-MOVE	Architectural wall: moveable partitions	Varies	Varies
A-WALL-PATT	Wall insulation, hatching and fill	Varies	Varies
A-WALL-PRHT	Partial-height walls (do not appear on reflected ceiling plans)	Varies	Varies
Electrical Layers			
E-LITE	Lighting	Varies	Varies
E-LITE-SPCL	Special lighting	Varies	Varies
E-LITE-EMER	Emergency lighting	Varies	Varies
E-LITE-EXIT	Exit lighting	Varies	Varies
E-LITE-CLNG	Ceiling - mounted lighting	Varies	Varies
E-LITE-WALL	Wall - mounted lighting	Varies	Varies

E-LITE-FLOR	Floor - mounted lighting	Varies	Varies
E-LITE-OTLN	Lighting outline for background (optional)	Varies	Varies
E-LITE-NUMB	Lighting circuit numbers	Varies	Varies
E-LITE-ROOF	Roof lighting	Varies	Varies
E-LITE-SITE	Site lighting (see also civil group)	Varies	Varies
E-LITE-SWCH	Lighting ---- switches	Varies	Varies
E-LITE-CIRC	Lighting circuits	Varies	Varies
E-LITE-IDEN	Luminaire identification and text	Varies	Varies
E-LITE-JBOX	Junction box	Varies	Varies
E-POWR	Power	Varies	Varies
E-POWR-WALL	Power wall outlets and receptacles	Varies	Varies
E-POWR-CLNG	Power ---- ceiling receptacles and devices	Varies	Varies
E-POWR-PANL	Power panels	Varies	Varies
E-POWR-EQPM	Power equipment	Varies	Varies
E-POWR-SWBD	Power switchboards	Varies	Varies
E-POWR-CIRC	Power circuits	Varies	Varies
E-POWR-URAC	Underfloor raceways	Varies	Varies
E-POWR-UCPT	Under - carpet wiring	Varies	Varies
E-POWR-CABL	Cable trays	Varies	Varies
E-POWR-FEED	Feeders	Varies	Varies
E-POWR-BUSW	Busways	Varies	Varies
E-POWR-NUMB	Power circuits numbers	Varies	Varies
E-POWR-IDEN	Power identification, text	Varies	Varies
E-POWR-SITE	Site power (see also civil group)	Varies	Varies
E-POWR-ROOF	Roof power	Varies	Varies
E-POWR-OTLN	Power outline for backgrounds	Varies	Varies
E-POWR-JBOX	Junction box	Varies	Varies

Civil - Data collected exterior of the building			
Layer Name	Layer Description	Line Type	Color #
Buildings / Primary Structures			
C-BLDG-IDEN	Building name and location number - annotation	Continuous	Varies
C-BLDG-OTLN	Building footprint - exterior wall of the building	Continuous	Varies
C-BLDG-MINR	Building minor (bus-shelter, kiask, information booth) <i>curbs</i>	Continuous	Varies
C-BLDG-UNDR	Building structure underground	Hidden	Varies
C-BLDG-PATT	Building hatch pattern	Continuous	Varies
C-BLDG-DETAIL	Building exterior stairs, fire escapes, porches, and canopies, loading docks attached to the building	Continuous	Varies
Alignments			
C-ALGN-OBJT	Alignments	Varies	Varies
C-ALGN-IDEN	Alignment annotation	Varies	Varies
Embankments			
C-EMBK-CNTL	Embankment centerline	Varies	Varies
C-EMBK-EDGE	Embankment edge and object lines	Varies	Varies
C-EMBK-IDEN	Embankment annotation	Continuous	Varies
Property			
C-PROP-BRNG	Property bearings and distance - annotation	Continuous	Varies
C-PROP-CONS	Property construction limits / controls	Varies	Varies
C-PROP-ESMT	Property easements with annotation	Varies	Varies
C-PROP-LINE	Property lines with annotation	Varies	Varies
C-PROP-LTID	Property lot identification (ie: parcel number, lot number etc.)	Continuous	Varies
C-PROP-DETL	Property details with annotation (scaled views depicting detailed areas of property)	Continuous	Varies
C-PROP-MONU	Property monumentation (includes all monuments found or set, witness corners)	Continuous	Varies
C-PROP-RECD	Property record data (data aquired by other sources - not as part of the field survey)	Continuous	Varies
C-PROP-RCID	Property record data identification - annotation	Continuous	Varies
Site			
C-SITE-SIGN	Site signage with annotation (ie: building signs)	Continuous	Varies
C-SITE-CMTY	Site cemetery with annotation	Continuous	Varies
C-SITE-BPTH	Site bicycle path	Varies	Varies
C-SITE-WALK	Site sidewalks, defined trails - crushed stone, pea-gravel, bark etc.	Varies	Varies
C-SITE-WKID	Site sidewalk material identification: crushed stone, pea-gravel, bark etc. - annotation	Continuous	Varies
C-SITE-FENC	Site fencing, chain-link, chain, wood rail, barbed-wire, etc.	Varies	Varies
C-SITE-FEID	Site fencing type identification: chain-link, chain, wood rail, barbed-wire etc. - annotation	Continuous	Varies
C-SITE-PTNL	Site pedestrian tunnel	Hidden	Varies
C-SITE-IDEN	Site identification notes - annotation	Continuous	Varies
C-SITE-MSTR	Site minor structure including misc impervious features (example: concrete / asphalt pads etc.)	Continuous	Varies

C-SITE-MSID	Site minor structure identification - annotation		
Survey			
C-SURV-CTRL	Survey control point - permanent markers including benchmarks, gps, brass-tablets, stone marker etc	Continuous	Varies
C-SURV-CTID	Survey control point identification	Continuous	Varies
C-SURV-LINE	Survey and control line	Varies	Varies
C-SURV-IDEN	Survey and control line annotation	Varies	Varies
Topography			
C-TOPO-BKLN	Topography break lines	Varies	Varies
C-TOPO-BORE	Topography soil borings	Continuous	Varies
C-TOPO-BOID	Topography soil boring identificaion tags - annotation	Continuous	Varies
C-TOPO-CORD	Topography coordinates	Continuous	Varies
C-TOPO-SPOT	Topography spot elevations	Continuous	Varies
C-TOPO-MAJR	Topography major contours	Varies	Varies
C-TOPO-MAID	Topography major contour identification - annotation	Continuous	Varies
C-TOPO-MINR	Topography minor contours	Varies	Varies
C-TOPO-MIID	Topography minor contour identification - annotation	Continuous	Varies
C-TOPO-SLOP	Topography cut/fill slopes	Continuous	Varies
C-TOPO-SLID	Topography cut/fill slope identification - annotation	Continuous	Varies
C-TOPO-IDEN	Topography identification notes - annotation	Continuous	Varies
Borrow Areas			
C-BORW-LINE	Borrow area outline	Varies	Varies
C-BORW-IDEN	Borrow area identification - annotation	Varies	Varies
Site Utility Systems			
Chilled Water System			
C-CWTR-JUNC	Chilled water junction: vaults, manholes, handholes and valve vaults (UIUC)	Continuous	200
C-CWTR-JUID	Chilled water junction identification: vaults, manholes, handholes and valve vaults - annotation (UIUC)	Continuous	200
C-CWTR-DEVC	Chilled water devices: test boxes, storage tanks, valves, meters, pumps, & regulators (UIUC)	Continuous	200
C-CWTR-DVID	Chilled water device identification: test boxes, storage tanks, valves, meters, pumps, & regulators (UIUC)	Continuous	200
C-CWTR-FTTG	Chilled water fittings caps, crosses, reducers & tees etc. (UIUC)	Continuous	200
C-CWTR-ABND	Chilled water pipe - abandoned (UIUC)	Hidden	253
C-CWTR-MSUP	Chilled water pipe - supply main (UIUC)	Center2	200
C-CWTR-SSUP	Chilled water pipe - supply service (UIUC)	Center2	200
C-CWTR-MRET	Chilled water pipe - return main (UIUC)	Center2	200
C-CWTR-SRET	Chilled water pipe - return service (UIUC)	Center2	200
C-CWTR-ANOD	Chilled water anode test station (UIUC)	Continuous	200
C-CWTR-STID	Chilled water station identification: anode - annotation (UIUC)	Continuous	200
C-CWTR-IDEN	Chilled water identification notes (UIUC)	Continuous	200
Domestic Water System			
C-DOMW-JUNC	Domestic water junction: vaults, manholes, handholes, pump stations and valve vaults (UIUC)	Continuous	5

C-DOMW-JUID	Domestic water junction identification: vaults, manholes, handholes, pump stations and valve vaults - annotation (UIUC)	Continuous	5
C-DOMW-DEVC	Domestic water devices: storage tanks, valves, meters, & hydrants (UIUC)	Continuous	5
C-DOMW-DVID	Domestic water device identification: storage tanks, valves, meters, & hydrants - annotation (UIUC)	Continuous	5
C-DOMW-FTTG	Domestic water fittings caps, crosses, reducers & tees etc. (UIUC)		5
C-DOMW-ABND	Domestic water pipe - abandoned (UIUC)	Hidden	253
C-DOMW-MAIN	Domestic water pipe - main (UIUC)	Continuous	5
C-DOMW-SERV	Domestic water pipe - service (UIUC)	Continuous	5
C-DOMW-NPOT	Domestic water pipe - non-potable water (UIUC)	Continuous	5
C-DOMW-IDEN	Domestic water identification notes - annotation (UIUC)	Continuous	5
C-DOMW-OTHR-JUNC	Domestic water junction: vaults, manholes, handholes, pump stations and valve vaults (owned or maintained by others)	Continuous	7
C-DOMW-OTHR-JUID	Domestic water junction identification: vaults, manholes, handholes, pump stations and valve vaults - annotation (owned or maintained by others)	Continuous	7
C-DOMW-OTHR-DEVC	Domestic water devices: storage tanks, valves, meters, & hydrants (owned or maintained by others)	Continuous	7
C-DOMW-OTHR-DVID	Domestic water device identification: storage tanks, valves, meters, & hydrants - annotation (owned or maintained by others)	Continuous	7
C-DOMW-OTHR-FTTG	Domestic water fittings caps, crosses, reducers & tees etc. (owned or maintained by others)	Continuous	7
C-DOMW-OTHR-ABND	Domestic water pipe - abandoned (owned or maintained by others)	Hidden	253
C-DOMW-OTHR-MAIN	Domestic water pipe - main (owned or maintained by others)	Continuous	7
C-DOMW-OTHR-SERV	Domestic water pipe - service (owned or maintained by others)	Continuous	7
C-DOMW-OTHR-NPOT	Domestic water pipe - non-potable (owned or maintained by others)	Continuous	7
C-DOMW-OTHR-IDEN	Domestic water identification notes - annotation (owned or maintained by others)	Continuous	7
Electrical Distribution System		Continuous	
C-ELEC-JUNC	Electrical junction: vaults, manholes, handholes, junction boxes, pull boxes, pedestals & splices (UIUC)	Continuous	1
C-ELEC-JUID	Electrical junction identification: vaults, manholes, handholes, junction boxes, pull boxes, pedestals & splices - annotation (UIUC)	Continuous	1
C-ELEC-DEVC	Electrical device: transformers, capacitors, voltage regulators, motors, buses, generators, meters, grounds & markers (UIUC)	Continuous	1
C-ELEC-DVID	Electrical device identification: transformers, capacitors, voltage regulators, motors, buses, generators, meters, grounds & markers - annotation (UIUC)	Continuous	1
C-ELEC-ABND	Electrical cable - abandoned (UIUC)	Hidden	253

C-EPRM-IDEN	Electrical cable - primary identification notes - annotation (UIUC)	Divide2	1
C-EPRM-UNDR	Electrical cable - primary underground (UIUC)	Divide2	1

C-ELEC-OTHR-SUBS	Electrical sub-stations (owned or maintained by others)	Continuous	7
C-ELEC-OTHR-DIST	Electrical distribution centers (owned or maintained by others)	Continuous	7
C-ELEC-OTHR-SWCH	Electrical switches fuse cutouts, pole mounted switches, circuit breakers, gang operated disconnects, reclosers, cubicle switches (owned or maintained by others)	Continuous	7
C-ELEC-OTHR-PDBL	Electrical pole - double (owned or maintained by others)	Continuous	7
C-ELEC-OTHR-PRSR	Electrical pole - risers (owned or maintained by others)	Continuous	7
C-ELEC-OTHR-PTWR	Electrical pole - tower (owned or maintained by others)	Continuous	7
C-ELEC-OTHR-PSGL	Electrical pole - single (owned or maintained by others)	Continuous	7
C-ELEC-OTHR-PDGY	Electrical pole - down guy (owned or maintained by others)	Continuous	7
C-ELEC-OTHR-PSPN	Electrical pole - span guy wires (owned or maintained by others)	Continuous	7
C-ELEC-OTHR-POID	Electrical pole - identification tags - annotation (owned or maintained by others)	Continuous	7
C-ELEC-OTHR-IDEN	Electrical identification notes - annotation (owned or maintained by others)	Continuous	7
Energy Management System (EMS)			
C-EMS-JUNC	Energy management system junction: pull boxes, manholes, handholes, pedestals, splices (UIUC)	Continuous	1
C-EMS-JUID	Energy management system junction identification: pull boxes, manholes, handholes, pedestals, splices - annotation (UIUC)	Continuous	1
C-EMS-DEVC	Energy management system devices: field interfaces, multiplexers, markers (UIUC)	Continuous	1
C-EMS-DVID	Energy management system device identification: field interfaces, multiplexers, markers - annotation (UIUC)	Continuous	1
C-EMS-ABND	Energy management system cable - abandoned (UIUC)	Hidden	253
C-EMS-OVHD	Energy management system cable - overhead (UIUC)	Continuous	5
C-EMS-UNDR	Energy management system cable - underground (UIUC)	Continuous	5
C-EMS-DUCT	Energy management system ductbanks (UIUC)	Dashed	7
Fire Protection System			

C-FIRE-JUNC	Fire protection junction: vaults, manholes, handholes, pump stations and valve vaults (UIUC)	Continuous	5
C-FIRE-JUID	Fire protection junction identification: vaults, manholes, handholes, pump stations and valve vaults - annotation (UIUC)	Continuous	5
C-FIRE-DEVC	Fire protection devices: storage tanks, valves, meters & hydrants (UIUC)	Continuous	5
C-FIRE-DVID	Fire protection device identification: storage tanks, valves, hydrants, & meters - annotation (UIUC)	Continuous	5
C-FIRE-FTTG	Fire protection fittings caps, crosses, reducers & tees etc. (UIUC)	Continuous	5
C-FIRE-ABND	Fire protection pipe - abandoned (UIUC)	Hidden	253
C-FIRE-MAIN	Fire protection pipe - main (UIUC)	Continuous	5
C-FIRE-SERV	Fire protection pipe - service (UIUC)	Continuous	5
C-FIRE-IDEN	Fire protection identification notes - annotation (UIUC)	Continuous	5
C-FIRE-OTHR-JUNC	Fire protection junction: vaults, manholes, handholes, pump stations and valve vaults (owned or maintained by others)	Continuous	7
C-FIRE-OTHR-JUID	Fire protection junction identification: vaults, manholes, handholes, pump stations and valve vaults - annotation (owned or maintained by others)	Continuous	7
C-FIRE-OTHR-DEVC	Fire protection devices: storage tanks, valves, valve vaults, meters (owned or maintained by others)	Continuous	7
C-FIRE-OTHR-DVID	Fire protection device identification: storage tanks, valves, meters - annotation (owned or maintained by others)	Continuous	7
C-FIRE-OTHR-FTTG	Fire protection fittings caps, crosses, reducers & tees etc. (owned or maintained by others)	Continuous	7
C-FIRE-OTHR-ABND	Fire protection pipe - abandoned (owned or maintained by others)	Hidden	253
C-FIRE-OTHR-MAIN	Fire protection pipe - main (owned or maintained by others)	Continuous	7
C-FIRE-OTHR-SERV	Fire protection pipe - service (owned or maintained by others)	Continuous	7
C-FIRE-OTHR-IDEN	Fire protection identification notes - annotation (owned or maintained by others)	Continuous	7
Fuel System			
C-FUEL-JUNC	Fuel system junction: hydrant fill points, vaults, manholes, handholes, test boxes, vent vaults, valve vaults, and hydrant control vaults and valves (UIUC)	Continuous	7
C-FUEL-JUID	Fuel system junction identification: hydrant fill points, vaults, manholes, handholes, test boxes, vent vaults, valve vaults, and hydrant control vaults and valves - annotation (UIUC)	Continuous	7
C-FUEL-DEVC	Fuel system devices: air eliminators, filter strainers, line vents, markers, meters, oil/water separators, pumps, regulators, and tanks (UIUC)	Continuous	7
C-FUEL-DVID	Fuel system device identification: air eliminators, filter strainers, line vents, markers, meters, oil/water separators, pumps, regulators, and tanks - annotation (UIUC)	Continuous	7

C-FUEL-FTTG	Fuel system fittings caps, crosses, reducers & tees etc. (UIUC)	Continuous	7
C-FUEL-ABND	Fuel system pipe - abandoned (UIUC)	Hidden	253
C-FUEL-MAIN	Fuel system pipe - main (UIUC)	Continuous	7
C-FUEL-SERV	Fuel system pipe - service (UIUC)	Continuous	7
C-FUEL-DEFL	Fuel system pipe - defueling (UIUC)	Continuous	7
C-FUEL-ANOD	Fuel system anode test station (UIUC)	Continuous	7
C-FUEL-BOOS	Fuel system booster station (UIUC)	Continuous	7
C-FUEL-REDC	Fuel system reducing station (UIUC)	Continuous	7
C-FUEL-PUMP	Fuel system pumping station (UIUC)	Continuous	7
C-FUEL-IDEN	Fuel system identification notes - annotation (UIUC)	Continuous	7
C-FUEL-OTHR-JUNC	Fuel system junction: hydrant fill points, vaults, manholes, handholes, test boxes, vent vaults, valve vaults, and hydrant control vaults and valves (owned or maintained by others)	Continuous	7
C-FUEL-OTHR-JUID	Fuel system junction identification: hydrant fill points, vaults, manholes, handholes, test boxes, vent vaults, valve vaults, and hydrant control vaults and valves - annotation (owned or maintained by others)	Continuous	7
C-FUEL-OTHR-DEVC	Fuel system devices: air eliminators, filter strainers, line vents, markers, meters, oil/water separators, pumps, regulators, and tanks (owned or maintained by others)	Continuous	7
C-FUEL-OTHR-DVID	Fuel system device identification: air eliminators, filter strainers, line vents, markers, meters, oil/water separators, pumps, regulators, and tanks - annotation (owned or maintained by others)	Continuous	7
C-FUEL-OTHR-FTTG	Fuel system fittings caps, crosses, reducers & tees etc. (owned or maintained by others)	Continuous	7
C-FUEL-OTHR-ABND	Fuel system pipe - abandoned (owned or maintained by others)	Hidden	253
C-FUEL-OTHR-MAIN	Fuel system pipe - main (owned or maintained by others)	Continuous	7
C-FUEL-OTHR-SERV	Fuel system pipe - service (owned or maintained by others)	Continuous	7
C-FUEL-OTHR-DEFL	Fuel system pipe - defueling (owned or maintained by others)	Continuous	7
C-FUEL-OTHR-ANOD	Fuel system anode test station (owned or maintained by others)	Continuous	7
C-FUEL-OTHR-BOOS	Fuel system booster station (owned or maintained by others)	Continuous	7
C-FUEL-OTHR-REDC	Fuel system reducing station (owned or maintained by others)	Continuous	7
C-FUEL-OTHR-PUMP	Fuel system pumping station (owned or maintained by others)	Continuous	7
C-FUEL-OTHR-IDEN	Fuel system identification notes - annotation (owned or maintained by others)	Continuous	7
Lighting System			
C-LITE-JUNC	Lighting junctions: pull boxes, manholes, handholes, pedestals, splices (UIUC)	Continuous	1
C-LITE-JUID	Lighting junction identification: pull boxes, manholes, handholes, pedestals, splices - annotation (UIUC)	Continuous	1

C-LITE-FL0D	Lighting flood lights (UIUC)	Continuous	1
C-LITE-POLE	Lighting pole mounted light (UIUC)	Continuous	1
C-LITE-STRT	Lighting street lights (UIUC)	Continuous	1
C-LITE-WALK	Lighting walkway lights (UIUC)	Continuous	1
C-LITE-SWCH	Lighting switches fuse cutouts, pole mounted switches, circuit breakers, gang operated disconnects, reclosers, cubicle switches (UIUC)	Continuous	1
C-LITE-ABND	Lighting cable - abandoned (UIUC)	Hidden	253
C-LITE-PRID	Lighting cable - primary identification notes - annotation (UIUC)	Border2	1
C-LITE-PRUN	Lighting cable - primary underground (UIUC)	Border2	1
C-LITE-PROH	Lighting cable - primary overhead (UIUC)	Border2	1
C-LITE-SCID	Lighting cable - secondary identification notes - annotation (UIUC)	Continuous	1
C-LITE-SCUN	Lighting cable - secondary underground (UIUC)	Border2	1
C-LITE-SCOH	Lighting cable - secondary overhead (UIUC)	Border2	1
C-LITE-SRID	Lighting cable - service identification notes - annotation (UIUC)	Continuous	1
C-LITE-SRUN	Lighting cable - service underground (UIUC)	Border2	1
C-LITE-OTHR-JUNC	Lighting junctions: pull boxes, manholes, handholes, pedestals, splices (owned or maintained by others)	Continuous	7
C-LITE-OTHR-JUID	Lighting junction identification: pull boxes, manholes, handholes, pedestals, splices - annotation (owned or maintained by others)	Continuous	7
C-LITE-OTHR-FL0D	Lighting flood lights (owned or maintained by others)	Continuous	7
C-LITE-OTHR-POLE	Lighting pole mounted light (owned or maintained by others)	Continuous	7
C-LITE-OTHR-STRT	Lighting street lights (owned or maintained by others)	Continuous	7
C-LITE-OTHR-WALK	Lighting walkway lights (owned or maintained by others)	Continuous	7
C-LITE-OTHR-SWCH	Lighting switches fuse cutouts, pole mounted switches, circuit breakers, gang operated disconnects, reclosers, cubicle switches (owned or maintained by others)	Continuous	7
C-LITE-OTHR-ABND	Lighting cable - abandoned (owned or maintained by others)	Hidden	253
C-LITE-OTHR-PRID	Lighting cable - primary identification notes - annotation (owned or maintained by others)	Dashed	7
C-LITE-OTHR-PRUN	Lighting cable - primary underground (owned or maintained by others)	Dashed	7
C-LITE-OTHR-PROH	Lighting cable - primary overhead (owned or maintained by others)	Dashed	7
C-LITE-OTHR-SCID	Lighting cable - secondary identification notes - annotation (owned or maintained by others)	Continuous	7
C-LITE-OTHR-SCUN	Lighting cable - secondary underground (owned or maintained by others)	Dashed	7
C-LITE-OTHR-SCOH	Lighting cable - secondary overhead (owned or maintained by others)	Dashed	7
C-LITE-OTHR-SRID	Lighting cable - service identification notes - annotation (owned or maintained by others)	Continuous	7

C-LITE-OTHR-SRUN	Lighting cable - service underground (owned or maintained by others)	Dashed	7
Natural Gas Distribution			
C-NGAS-JUNC	Natural gas junction: hydrant fill points, vaults, manholes, handholes, test boxes, vent vaults, and valve vaults (UIUC)	Continuous	52
C-NGAS-JUID	Natural gas junction identification: hydrant fill points, vaults, manholes, handholes, test boxes, vent vaults, and valve vaults - annotation (UIUC)	Continuous	52
C-NGAS-DEVC	Natural gas devices: vents, markers, meters, pumps, regulators, tanks, taps, and valves (UIUC)	Continuous	52
C-NGAS-DVID	Natural gas device identification: vents, markers, meters, pumps, regulators, tanks, taps, and valves - annotation (UIUC)	Continuous	52
C-NGAS-ABND	Natural gas pipe - abandoned (UIUC)	Hidden	253
C-NGAS-MAIN	Natural gas pipe - main (UIUC)	Continuous	52
C-NGAS-SERV	Natural gas pipe - service (UIUC)	Continuous	52
C-NGAS-ANOD	Natural gas anode test station (UIUC)	Continuous	52
C-NGAS-BOOS	Natural gas booster station (UIUC)	Continuous	52
C-NGAS-REDC	Natural gas reducing station (UIUC)	Continuous	52
C-NGAS-PUMP	Natural gas pumping station (UIUC)	Continuous	52
C-NGAS-STID	Natural gas station identification tags: anode test, booster, reducing, pumping - annotation (UIUC)	Continuous	52
C-NGAS-IDEN	Natural gas identification notes - annotation (UIUC)	Continuous	52
C-NGAS-OTHR-JUNC	Natural gas junction: hydrant fill points, vaults, manholes, handholes, test boxes, vent vaults, and valve vaults (owned or maintained by others)	Continuous	7
C-NGAS-OTHR-JUID	Natural gas junction identification: hydrant fill points, vaults, manholes, handholes, test boxes, vent vaults, and valve vaults - annotation (owned or maintained by others)	Continuous	7
C-NGAS-OTHR-DEVC	Natural gas devices: vents, markers, meters, pumps, regulators, tanks, taps, and valves (owned or maintained by others)	Continuous	7
C-NGAS-OTHR-DVID	Natural gas device identification: vents, markers, meters, pumps, regulators, tanks, taps, and valves - annotation (owned or maintained by others)	Continuous	7
C-NGAS-OTHR-ABND	Natural gas pipe - abandoned (owned or maintained by others)	Hidden	253
C-NGAS-OTHR-MAIN	Natural gas pipe - main (owned or maintained by others)	Dashed	7
C-NGAS-OTHR-SERV	Natural gas pipe - service (owned or maintained by others)	Dashed	7
C-NGAS-OTHR-ANOD	Natural gas anode test station (owned or maintained by others)	Continuous	7
C-NGAS-OTHR-BOOS	Natural gas booster station (owned or maintained by others)	Continuous	7
C-NGAS-OTHR-REDC	Natural gas reducing station (owned or maintained by others)	Continuous	7
C-NGAS-OTHR-PUMP	Natural gas pumping station (owned or maintained by others)	Continuous	7

C-NGAS-OTHR-STID	Natural gas station identification tags: anode test, booster, reducing, & pumping - annotation (owned or maintained by others)	Continuous	7
C-NGAS-OTHR-IDEN	Natural gas identification notes - annotation (owned or maintained by others)	Continuous	7
Steam Distribution System			
C-STEAM-JUNC	Steam distribution junction: vaults and manholes (UIUC)		
C-STEAM-JUID	Steam distribution junction identification: vaults and manholes (UIUC)		
C-STEAM-DEVC	Steam distribution devices vaults, traps, condensate pumps (UIUC)	Continuous	211
C-STEAM-DVID	Steam distribution device identification tags: vaults, traps, condensate pumps - annotation (UIUC)	Continuous	211
C-STEAM-ABND	Steam distribution abandoned tunnels, piping (UIUC)	Hidden	253
C-STEAM-STNL	Steam distribution shallow tunnel (UIUC)	Phantom2	211
C-STEAM-TUNL	Steam distribution tunnel (UIUC)	Phantom2	211
C-STEAM-LP	Steam distribution: low pressure piping (UIUC)	Center2	211
C-STEAM-UP	Steam distribution: utility pressure piping (UIUC)	Center2	211
C-STEAM-HP	Steam distribution: high pressure piping (UIUC)	Center2	211
C-STEAM-CR	Steam distribution: condensate return piping (UIUC)	Center2	211
C-STEAM-PR	Steam distribution: pressure return (UIUC)	Center2	211
C-STEAM-VR	Steam distribution: vacuum return (UIUC)	Center2	211
C-STEAM-IDEN	Steam distribution identification notes (UIUC)	Continuous	211
Sanitary Sewer System			
C-SSWR-JUNC	Sanitary sewer junction: manholes and lift-stations (UIUC)	Continuous	3
C-SSWR-JUID	Sanitary sewer junction identification: manholes and lift-stations - annotation (UIUC)	Continuous	3
C-SSWR-DEVC	Sanitary sewer devices: cleanouts and air-release valves (UIUC)	Continuous	3
C-SSWR-DVID	Sanitary sewer device identification: cleanouts and air-release valves - annotation (UIUC)	Continuous	3
C-SSWR-ABND	Sanitary sewer pipe - abandoned (UIUC)	Hidden	253
C-SSWR-MAIN	Sanitary sewer pipe - main (UIUC)	DashDot2	3
C-SSWR-SERV	Sanitary sewer pipe - service (UIUC)	DashDot2	3
C-SSWR-FRCM	Sanitary sewer pipe - forcemain (UIUC)	Hidden	3
C-SSWR-SEPT	Sanitary sewer septic systems (UIUC)	DashDot2	3
C-SSWR-ARRW	Sanitary sewer direction of flow arrows (UIUC)	Continuous	3
C-SSWR-IDEN	Sanitary sewer identification notes - annotation (UIUC)	Continuous	3
C-SSWR-OTHR-JUNC	Sanitary sewer junction: manholes and lift-stations (owned or maintained by others)	Continuous	7
C-SSWR-OTHR-JUID	Sanitary sewer junction identification: manholes and lift-stations - annotation (owned or maintained by others)	Continuous	7
C-SSWR-OTHR-DEVC	Sanitary sewer devices: cleanouts and air-release valves (owned or maintained by others)	Continuous	7
C-SSWR-OTHR-DVID	Sanitary sewer device identification: cleanouts and air-release valves - annotation (owned or maintained by others)	Continuous	7

C-SSWR-OTHR-ABND	Sanitary sewer pipe - abandoned (owned or maintained by others)	Hidden	253
C-SSWR-OTHR-MAIN	Sanitary sewer pipe - main (owned or maintained by others)	Dashed	7
C-SSWR-OTHR-SERV	Sanitary sewer pipe - service (owned or maintained by others)	Dashed	7
C-SSWR-OTHR-SEPT	Sanitary sewer septic systems (owned or maintained by others)	Dashed	7
C-SSWR-OTHR-FRCM	Sanitary sewer forcemain (owned or maintained by others)	Hidden	7
C-SSWR-OTHR-ARRW	Sanitary sewer direction of flow arrows (owned or maintained by others)	Continuous	7
C-SSWR-OTHR-IDEN	Sanitary sewer identification notes - annotation (owned or maintained by others)	Continuous	7
Storm Drainage System			
C-STRM-JUNC	Storm drainage junction: manholes, curb inlets, catch basins, drainage inlets, and storm drains (UIUC)	Continuous	70
C-STRM-JUID	Storm drainage junction identification: manholes, curb inlets, catch basins, drainage inlets, and storm drains - annotation (UIUC)	Continuous	70
C-STRM-DEVC	Storm drainage devices: headwalls, cleanouts, downspouts, culverts and air-release valves (UIUC)	Continuous	70
C-STRM-DVID	Storm drainage device identification: headwalls, cleanouts, downspouts, culverts and air-release valves (UIUC)	Continuous	70
C-STRM-ABND	Storm drainage pipe - abandoned (UIUC)	Hidden	253
C-STRM-MAIN	Storm drainage pipe - main (UIUC)	Hidden	70
C-STRM-SERV	Storm drainage pipe - service (UIUC)	Hidden	70
C-STRM-UDRN	Storm drainage pipe - underdrain (UIUC)	Hidden	70
C-STRM-FRCM	Storm drainage pipe - forcemain (UIUC)	Hidden	70
C-STRM-ARRW	Storm drainage direction of flow arrows (UIUC)	Continuous	70
C-STRM-POND	Storm drainage detention basins, retention basins with annotation (UIUC)	Continuous	Varies
C-STRM-DTCH	Storm drainage swales / ditches with annotation (UIUC)	Continuous	Varies
C-STRM-EROS	Storm drainage erosion control with annotation (UIUC)	Continuous	Varies
C-STRM-IDEN	Storm drainage identification notes - annotation (UIUC)	Continuous	Varies
C-STRM-OTHR-JUNC	Storm drainage junction: manholes, curb inlets, catch basins, drainage inlets, and storm drains (owned or maintained by others)	Continuous	7
C-STRM-OTHR-JUID	Storm drainage junction identification: manholes, curb inlets, catch basins, drainage inlets, and storm drains - annotation (owned or maintained by others)	Continuous	7
C-STRM-OTHR-DEVC	Storm drainage devices: headwalls, cleanouts, downspouts, culverts and air-release valves (owned or maintained by others)	Continuous	7
C-STRM-OTHR-DVID	Storm drainage device identification: headwalls, cleanouts, downspouts, culverts and air-release valves (owned or maintained by others)	Continuous	7

C-STRM-OTHR-ABND	Storm drainage pipe - abandoned (owned or maintained by others)	Hidden	7
C-STRM-OTHR-MAIN	Storm drainage pipe - main (owned or maintained by others)	Hidden	7
C-STRM-OTHR-SERV	Storm drainage pipe - service (owned or maintained by others)	Hidden	7
C-STRM-OTHR-UDRN	Storm drainage pipe - underdrain (owned or maintained by others)	Hidden	7
C-STRM-OTHR-FRCM	Storm drainage pipe - forcemain (owned or maintained by others)	Hidden	7
C-STRM-OTHR-ARRW	Storm drainage direction of flow arrows (owned or maintained by others)	Continuous	7
C-STRM-OTHR-IDEN	Storm drainage identification notes - annotation (owned or maintained by others)	Continuous	7
Telecommunications System		Continuous	7
C-TELE-JUNC	Telecommunication system junction: vaults, manholes, handholes, junction boxes, pull boxes, pedestals & splices (UIUC)	Continuous	7
C-TELE-JUID	Telecommunication system junction identification: vaults, manholes, handholes, junction boxes, pull boxes, pedestals and splices (UIUC)	Continuous	7
C-TELE-ABND	Telecommunication system conduit, cable, fiber optics - abandoned (UIUC)	Hidden	253
C-TELE-MAIN	Telecommunication system conduit - main (UIUC)	Continuous	7
C-TELE-SERV	Telecommunication system conduit - service (UIUC)	Continuous	7
C-TELE-DBRY	Telecommunication system cable - direct buried (UIUC)	Continuous	7
C-TELE-FIBR	Telecommunication system fiber optic (UIUC)	Continuous	7
C-TELE-IDEN	Telecommunication system identification notes - annotation (UIUC)	Continuous	7
Site Transportation System			
Road System			
C-ROAD-BRDG	Road bridge	Continuous	Varies
C-ROAD-FLCB	Transportation road flowline curb	Continuous	Varies
C-ROAD-TBCB	Transportation road top back of curb	Continuous	Varies
C-ROAD-RWAY	Transportation road rights-of-way, with markers	Continuous	Varies
C-ROAD-CNTR	Transportation road centerlines	Continuous	Varies
C-ROAD-CNID	Transportation road centerline identification - annotation	Continuous	Varies
C-ROAD-GARD	Transportation road guardrails	Continuous	Varies
C-ROAD-IDEN	Transportation road identification - annotation	Continuous	Varies
C-ROAD-PVID	Transportation road pavement type identification - annotation	Continuous	Varies
C-ROAD-SIGN	Transportation road signage with annotation	Continuous	Varies
C-ROAD-MINR	Transportation minor roads (crushed stone, dirt, oil and chip) <i>not defined by curbs</i>	Continuous	Varies
Parking System			
C-PKNG-CARS	Parking lot graphic illustration of cars	Continuous	Varies
C-PKNG-CNID	Parking lot centerline identification - annotation	Continuous	Varies
C-PKNG-CNTR	Parking lot centerlines	Continuous	Varies
C-PKNG-CURB	Parking lot curbs, parking bumpers, islands	Continuous	Varies
C-PKNG-DRAN	Parking lot drainage slope indications	Continuous	Varies

C-PKNG-SPID	Parking lot space identification - annotation	Continuous	Varies
C-PKNG-IDEN	Parking lot identification - annotation	Continuous	Varies
C-PKNG-SIGN	Parking lot signage with annotation	Continuous	Varies
C-PKNG-PVMK	Parking lot pavement markings (space stripes, handicapped symbols, Right/Left/Straight turn arrows etc.)	Continuous	Varies
Railroad System			
C-RAIL-CNID	Railroad centerline identification - annotation	Varies	Varies
C-RAIL-CNTR	Railroad centerline	Center	Varies
C-RAIL-BRDG	Railroad bridge structure	Varies	Varies
C-RAIL-RAIL	Railroad rails	Varies	Varies
C-RAIL-SIGN	Railroad signage with annotation	Varies	Varies
Site Landscaping			
Plants			
L-PLNT-TREE	Landscape plant trees & hedge rows	Varies	Varies
L-PLNT-TRID	Landscape plant trees identification tags: deciduous, coniferous and hedge rows etc. - annotation	Varies	Varies
L-PLNT-GRND	Landscape plant ground covers and vines	Varies	Varies
L-PLNT-BEDS	Landscape plant rock, bark, and other Landscape beds, planters	Varies	Varies
L-PLNT-TURF	Landscape plant lawn areas	Varies	Varies
Irrigation System			
L-IRRIG-JUNC	Landscape irrigation system junction: manholes, vaults, and valve vault (UIUC)	Varies	Varies
L-IRRIG-JUID	Landscape irrigation system junction identification: manholes, vaults, and valve vault - annotation (UIUC)	Varies	Varies
L-IRRIG-DEVC	Landscape irrigation system devices: valves, meters, sprinkler heads and hydrants (UIUC)	Varies	Varies
L-IRRIG-DVID	Landscape irrigation system device identification: valves, meters, sprinkler heads and hydrants (UIUC)	Varies	Varies
L-IRRIG-ABND	Landscape irrigation system pipe - abandoned (UIUC)	Hidden	253
L-IRRIG-MAIN	Landscape irrigation system pipe - main (UIUC)	Varies	Varies
L-IRRIG-SERV	Landscape irrigation system pipe - service (UIUC)	Varies	Varies
Structures			
L-SITE-WALL	Landscape site retaining walls	Varies	Varies
L-SITE-STEP	Landscape site steps (not attached to buildings)	Varies	Varies
L-SITE-DECK	Landscape site decks	Varies	Varies
L-SITE-BRDG	Landscape site bridges	Varies	Varies
L-SITE-POOL	Landscape site pools and spas	Varies	Varies
L-SITE-SPRT	Landscape site sports fields	Varies	Varies
L-SITE-PLAY	Landscape site play structures	Varies	Varies
L-SITE-STRC	Landscape site structures for ecstatic purposes (brick columns, concrete benches, statues, etc.)	Varies	Varies
Hydroseeding			
L-HYDR-IDEN	Hydroseeding annotation	Varies	Varies
L-HYDR-GENL	Hydroseeding	Varies	Varies
L-HYDR-SEED	Hydroseeding seed	Varies	Varies
L-HYDR-SODS	Hydroseeding sod	Varies	Varies
L-HYDR-SPRG	Hydroseeding sprigs	Varies	Varies
L-HYDR-SDSD	Hydroseeding seed and sod	Varies	Varies

L-HYDR-SDSG	Hydroseeding seed and sprig	Varies	Varies
L-HYDR-SSSG	Hydroseeding seed, sod, and sprig	Varies	Varies
<i>Turfing</i>			
L-TURF-IDEN	Turfing annotation	Varies	Varies
L-TURF-MLCH	Turfing mulch outlines	Varies	Varies
<i>Seeding</i>			
L-SEED-IDEN	Seeding annotation	Varies	Varies
L-SEED-SDSD	Seeding seed and sod	Varies	Varies
L-SEED-SSSG	Seeding seed, sod, and sprig	Varies	Varies
L-SEED-SDSG	Seeding seed and sprig	Varies	Varies
L-SEED-SODS	Seeding sod	Varies	Varies
L-SEED-GENL	Seeding seed	Varies	Varies

DRAWINGS

DRAWING 00100-1: SPACE INVENTORY – ROOM NUMBERING SYSTEM

DRAWING 00100-2: SPACE INVENTORY – ACTUAL ROOM USE ASSIGNED

DRAWING 00100-3: SPACE INVENTORY – AREA POLYLINES

FIRST / GROUND FLOOR PLAN

NOTE:

ALL ROOM USAGES SHALL BE ASSIGNED IN ACCORDANCE WITH THE "POSTSECONDARY EDUCATION FACILITIES INVENTORY AND CLASSIFICATION MANUAL" STANDARDS FOR ROOM USAGES TABLE 1 IN THE "SPACE INVENTORY - ROOM NUMBER ASSIGNMENT STANDARDS".

ALL SPACE INVENTORY DATA SHALL BE PLACED IN CAD FILES IN ACCORDANCE WITH THE UNIVERSITY'S "CAD STANDARDS".

 315 ← {ACTUAL ROOM USE CODE}

ACTUAL ROOM USE LABEL KEY

SPACE INVENTORY - ACTUAL ROOM USE ASSIGNMENTS	JULY 1, 2001
	Dwg. No. 00100-2

NOTES

1. EXTERIOR GROSS AREA - ONE (1) CLOSED PLINE AROUND THE EXTERIOR FACE OF THE EXTERIOR WALL FOR EACH FLOOR OF THE STRUCTURE (PLINE SHALL BE PLACED ON THE A-AREA-GROS LAYER. SEE EXHIBIT 00100-1, UIUC CAD STANDARD MASTER LAYER LIST .)
2. INTERIOR GROSS AREA - ONE (1) CLOSED PLINE AROUND THE INTERIOR FACE OF THE EXTERIOR WALL FOR EACH FLOOR OF THE STRUCTURE (PLINE SHALL BE PLACED ON THE A-AREA-GROS LAYER. SEE EXHIBIT 00100-1, UIUC CAD STANDARD MASTER LAYER LIST .)
3. ROOM INTERIOR AREA - ONE (1) CLOSED PLINE AROUND THE INTERIOR FACE OF THE WALL FOR EACH INDIVIDUAL ROOM INCLUDING CORRIDORS, LOBBIES, VESTIBULES, ELEVATORS, STAIRWELLS, ETC. ON A FLOOR (PLINE SHALL BE PLACED ON THE A-AREA-RM LAYER. SEE EXHIBIT 00100-1, UIUC CAD STANDARD MASTER LAYER LIST .)
4. EXAMPLE: EXTERIOR / INTERIOR POLYLINES SHALL NOT INCLUDE CORNICES, WINDOW WELLS, DOOR OPENINGS, ETC. - ROOM AREA POLYLINES SHALL NOT INCLUDE DOOR OR WINDOW OPENINGS.
5. ALL SPACE INVENTORY DATA SHALL BE PLACED IN CAD FILES IN ACCORDANCE TO THE UNIVERSITY'S "CAD STANDARDS".
