

What is the AFMFA Funding Source?

Academic Facilities Maintenance Fund Assessment (AMFMA) is an ongoing fee assessed each semester to students to help fund various deferred maintenance projects. It provided approximately \$3.8 million in funding for deferred maintenance in 2007 and \$11.5 million in 2008.

AFMFA Criteria:

- Projects are to address deficiencies found on VFA infrastructure deficiency list.
- Projects are to have a noticeable impact on teaching and learning environment
- Projects should demonstrate a significant benefit to a large number of students.

AFMFA Priority given to projects which:

- Address Life safety deficiencies – highest priority
- Have positive impact on heavily scheduled/utilized buildings
- Complement programmatic projects
- Support emerging teaching and learning methodologies
- Result in economies of scale
- Have a pronounced impact on energy conservation
- Address complaints and/or high operation and maintenance costs
- Have high campus visibility
